

Domsjö Fabriker

From paper grade pulp to Mumbai

FTP Conference 2011

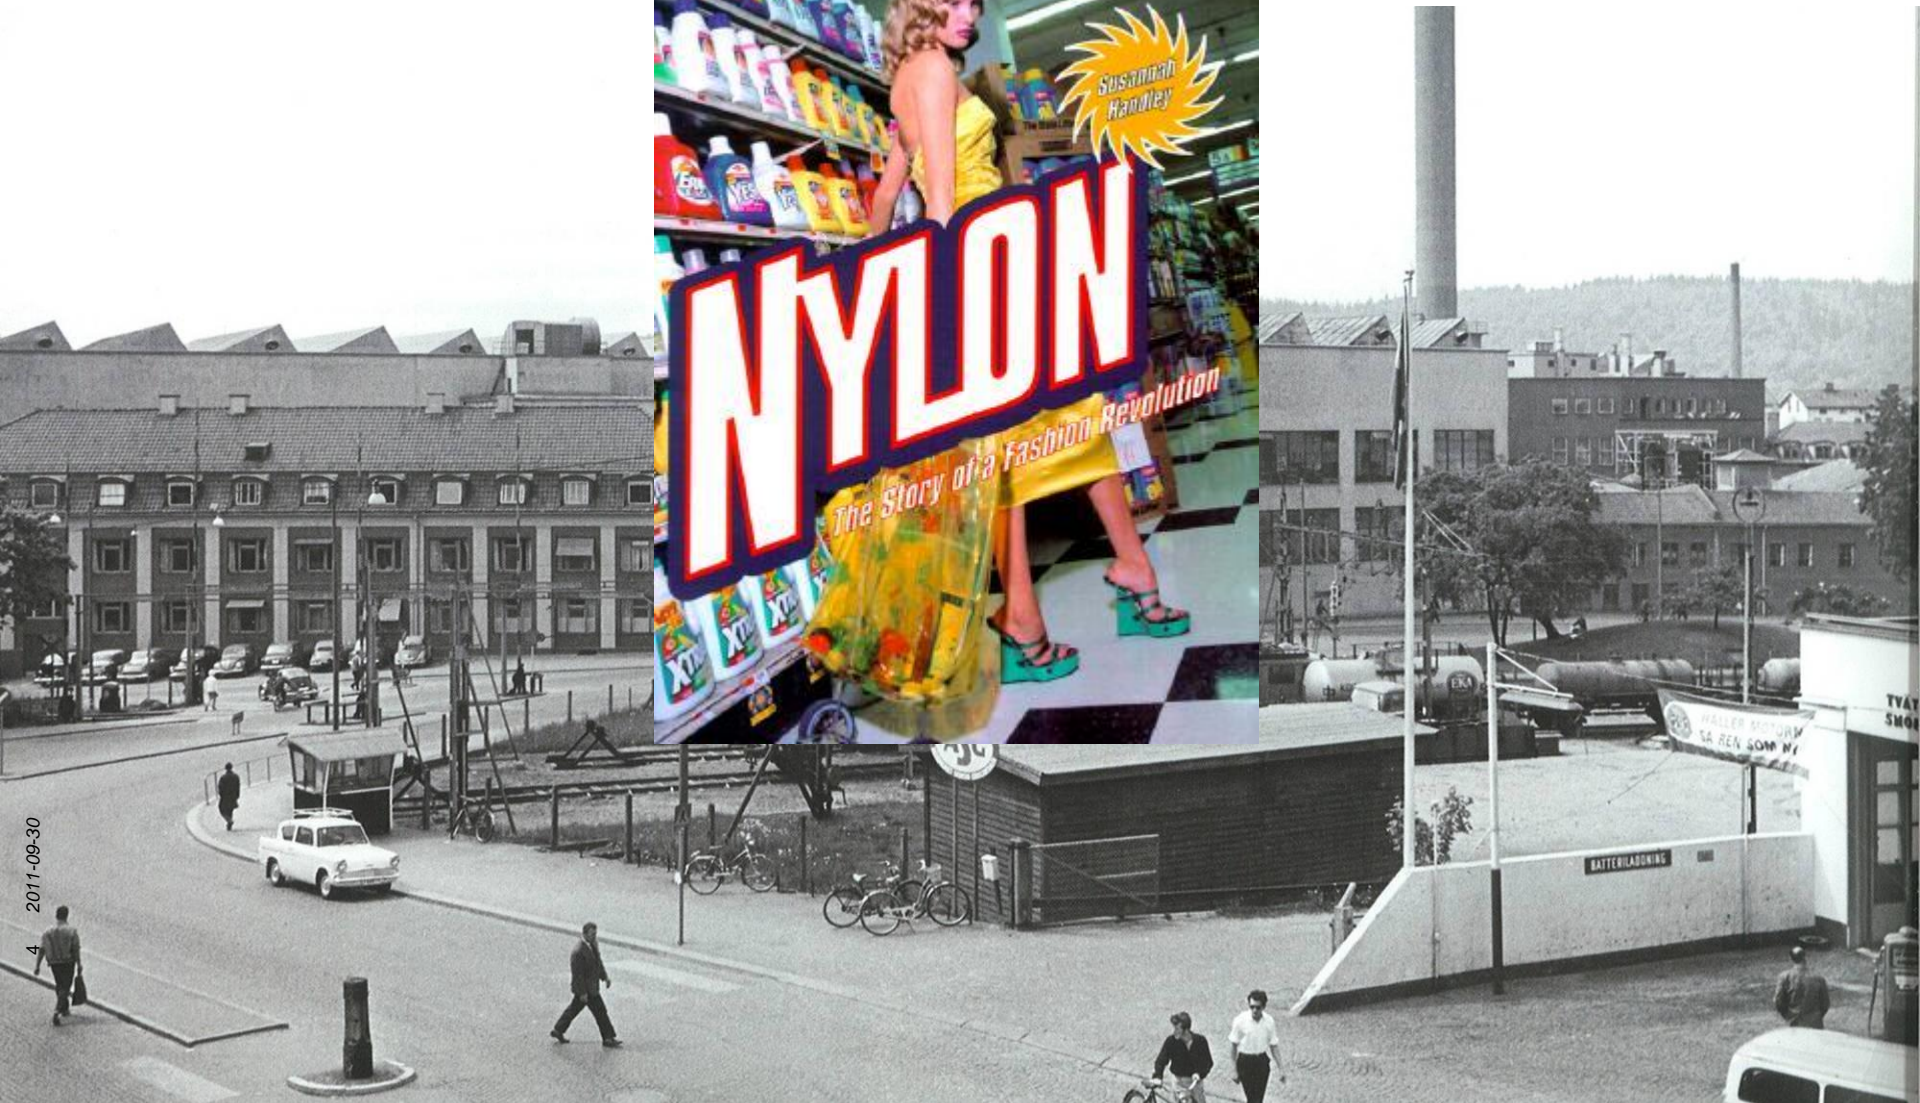

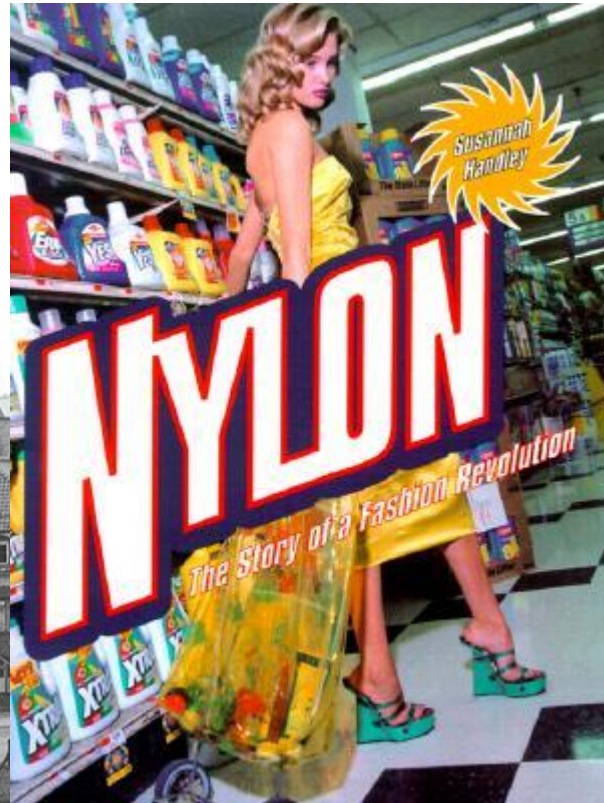

Our products

Dried Lignin – our newest product

Sweden in the 60's

There are serious challenges

*Forest is part
of the solution*

The resources are limited

Water

Oil

Cotton

Food

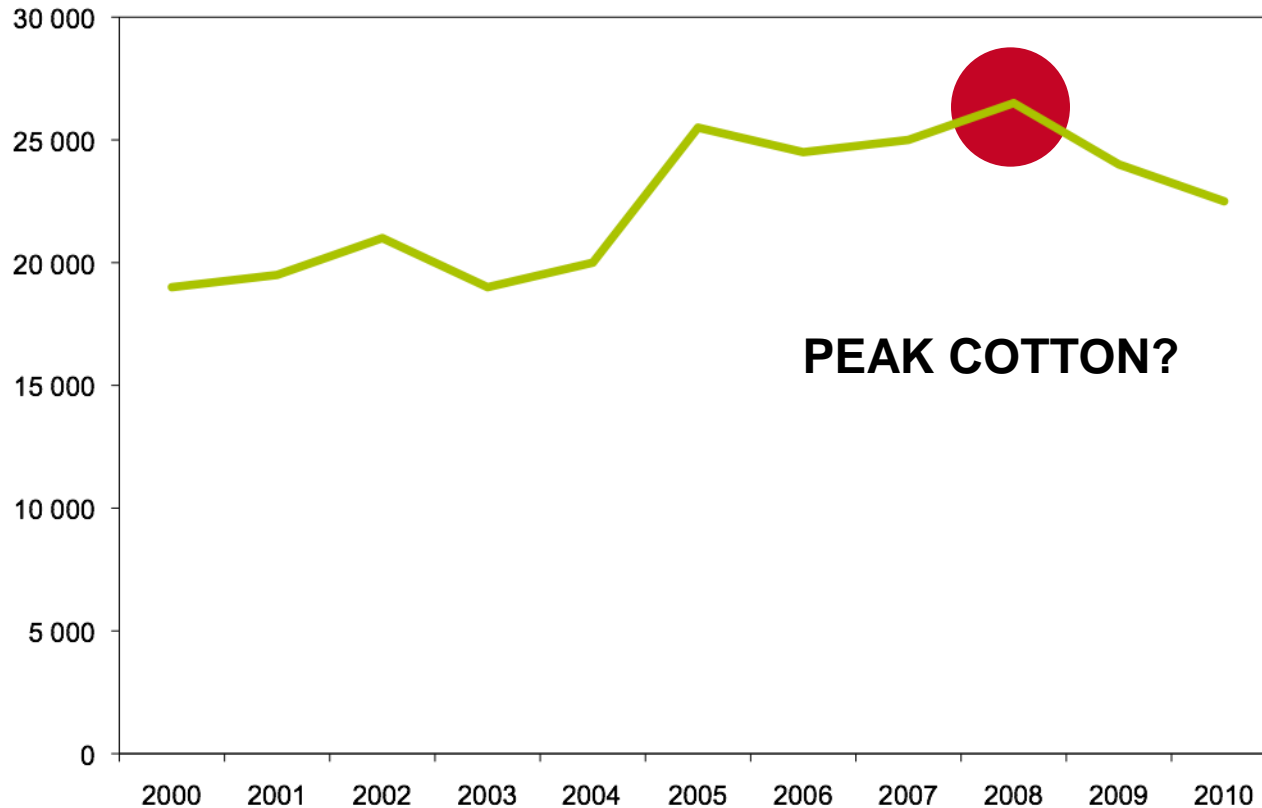

How shall we dress ourselves in the future?

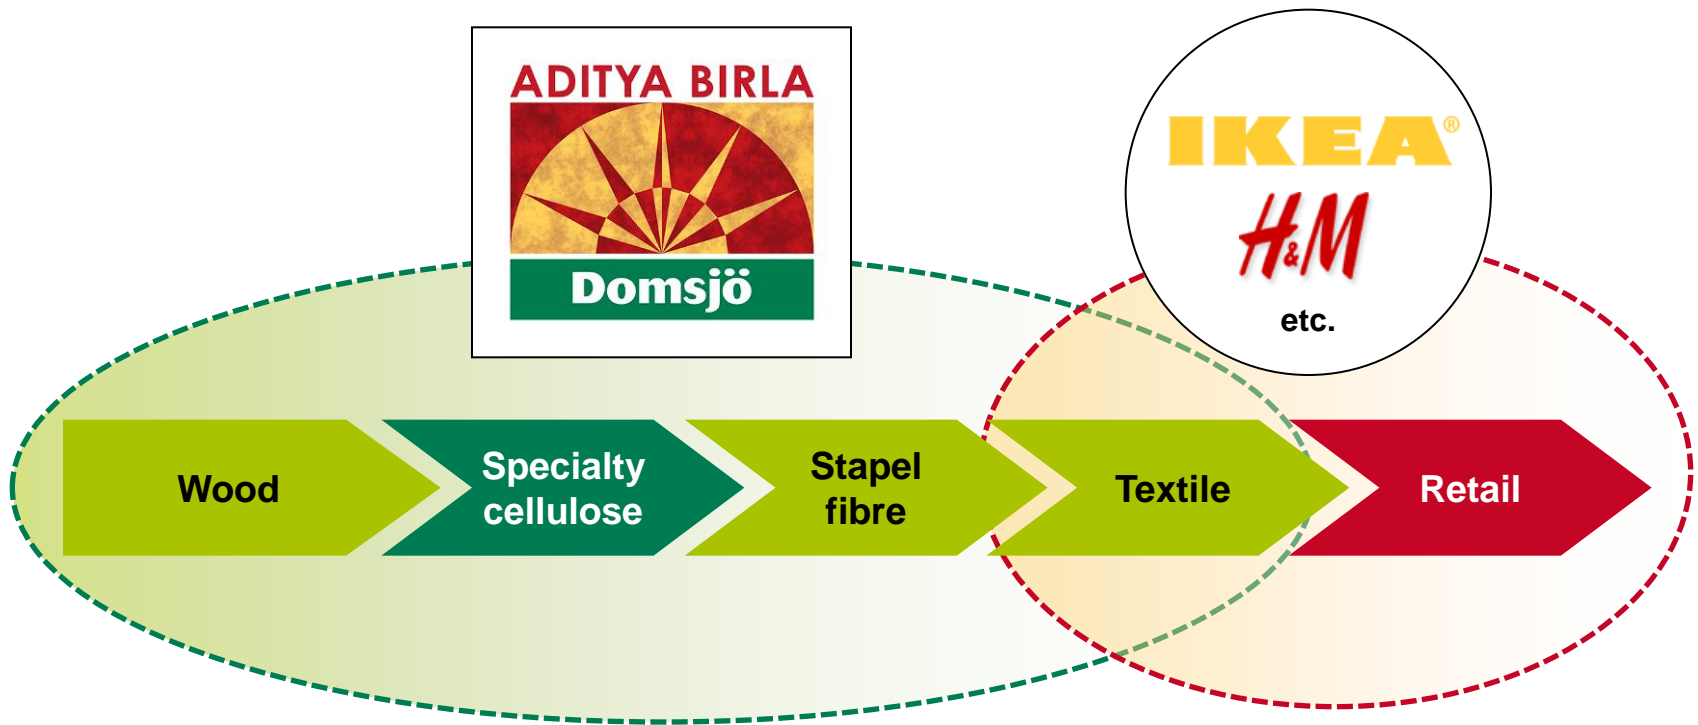

Cotton production consumes over 11% of all chemicals used worldwide for agriculture and 25% of world's pesticides

It also requires irrigation in dry areas

Cotton production worldwide

Domsjö and ABG in synergy

April 2011
