

Pacing innovation

FTP-C7

Pacing Innovation for the bio-economy

26th - 27th September 2011

Sobieski Hotel, Warsaw, Poland

Michał Jarczyński, FTP, High-Level Group Chairman

Introducing FTP

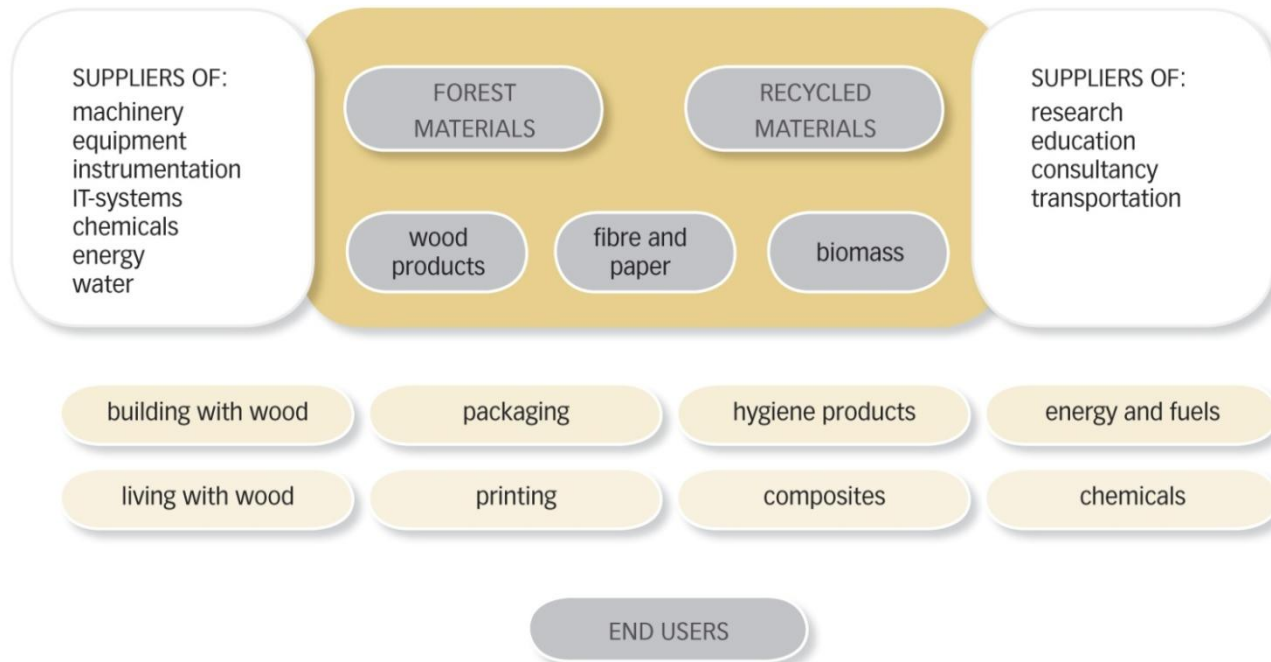

- Launched in 2005
- The Forest-Based Sector ETP (FTP) is a European network bringing together researchers, industry and other relevant stakeholders in order to foster European **research** and **innovation** in the forest-based sector.

FTP mobilises *Critical Mass of RTD and Innovation Capacity*

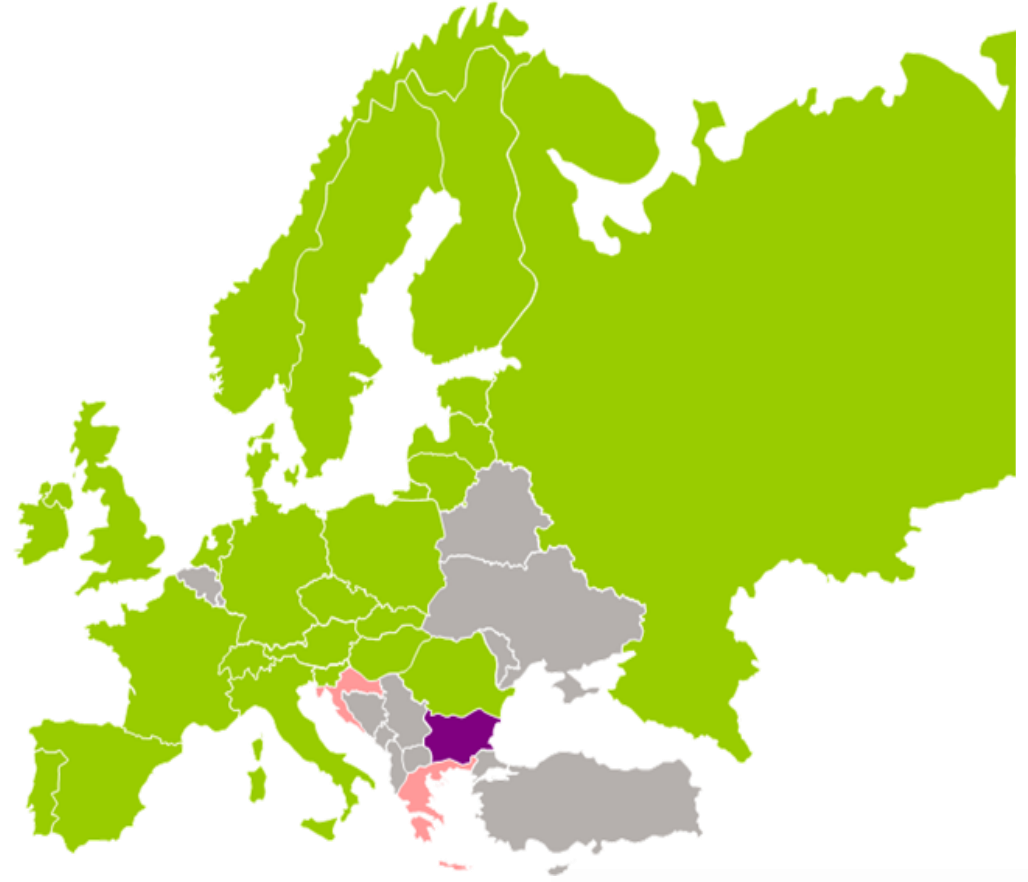

European Forest-Based Sector

Building **European collaboration**

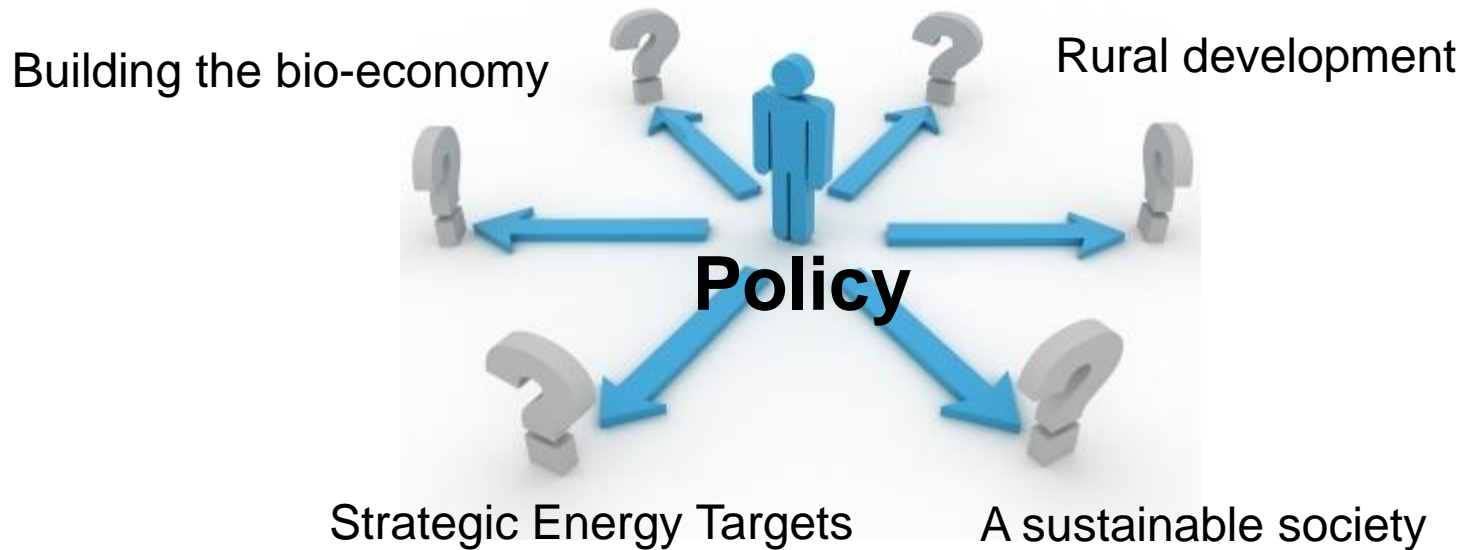

FTP National Support Groups

Austria	the Netherlands
Bulgaria	Norway
Czech Republic	Poland
Denmark	Romania
Estonia	Russia
Finland	Slovakia
France	Slovenia
Hungary	Spain
Germany	Sweden
Italy	Switzerland
Latvia	United Kingdom
Lithuania	

FTP is an interface between industry, researchers and policy-makers in **setting research funding priorities**

Creating the Innovation Union

Setting more ambitious targets for research & innovation

Vision 2030 (launched in 2005)

Strategic Research Agenda (launched in 2006)

Bringing together the forest-based value-chain

FTP Shareholders

- CEI-Bois (European Confederation of Woodworking Industries)
 - 100.000 companies
- CEPF (Confederation of European Forest Owners)
 - 16 million family forest owners
- CEPI (Confederation of European Paper Industries)
 - 850 companies with 1250 paper mills
- EUSTAFOR (European State Forest Association)
 - Forest area ~ 45 million ha (27% of EU forest area)

About the conference

We are delighted to invite you to the 7th Forest-Based Sector ETP conference which will take place on Monday 26th and Tuesday 27th September 2011 in Warsaw, Poland, in conjunction with the Polish Presidency of the European Union. The conference will be entitled "Pacing Innovation for the Bioeconomy" and will focus strongly on the needs for stimulating innovation initiatives within the forest-based sector

The media patronage: **Gazeta przemysłu Drzewnego**

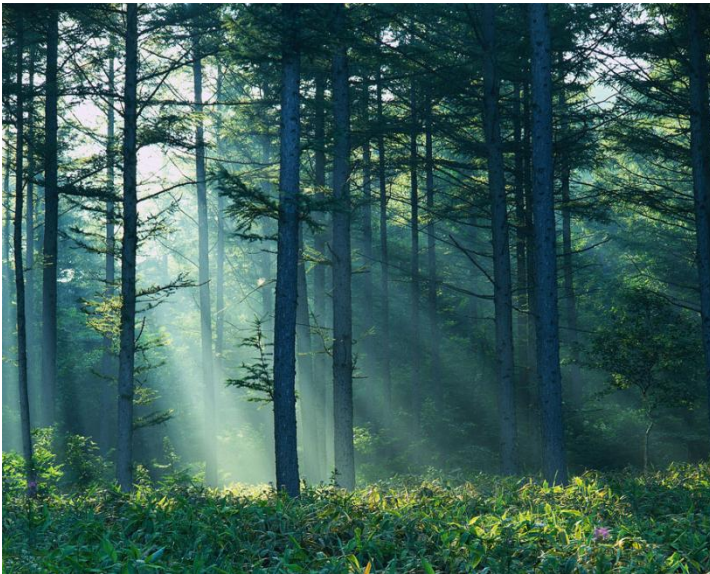

Innovation

= to renew or change. The creation of better or more effective products, processes, technologies, or ideas.

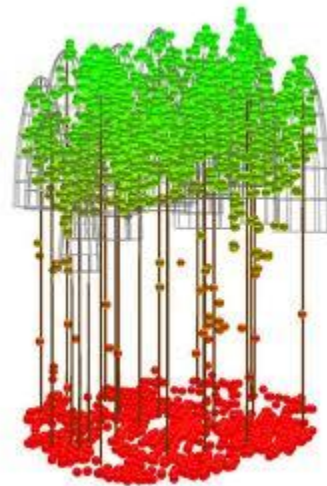

Innovations of the European Forest-Based Sector

Sustainability

consumer friendly products

LIDAR forest inventory

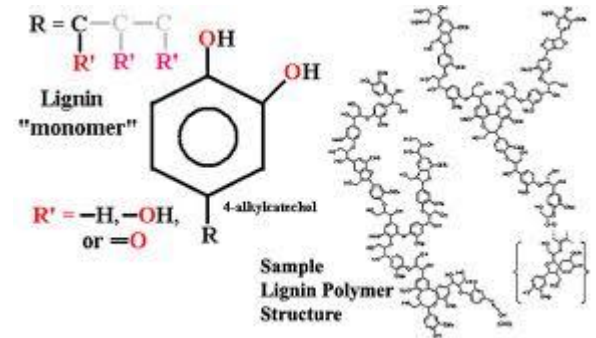

Example of research areas of European Forest-Based Sector

Climate change & forest ecosystems

Nano-cellulose

Lignin chemistry

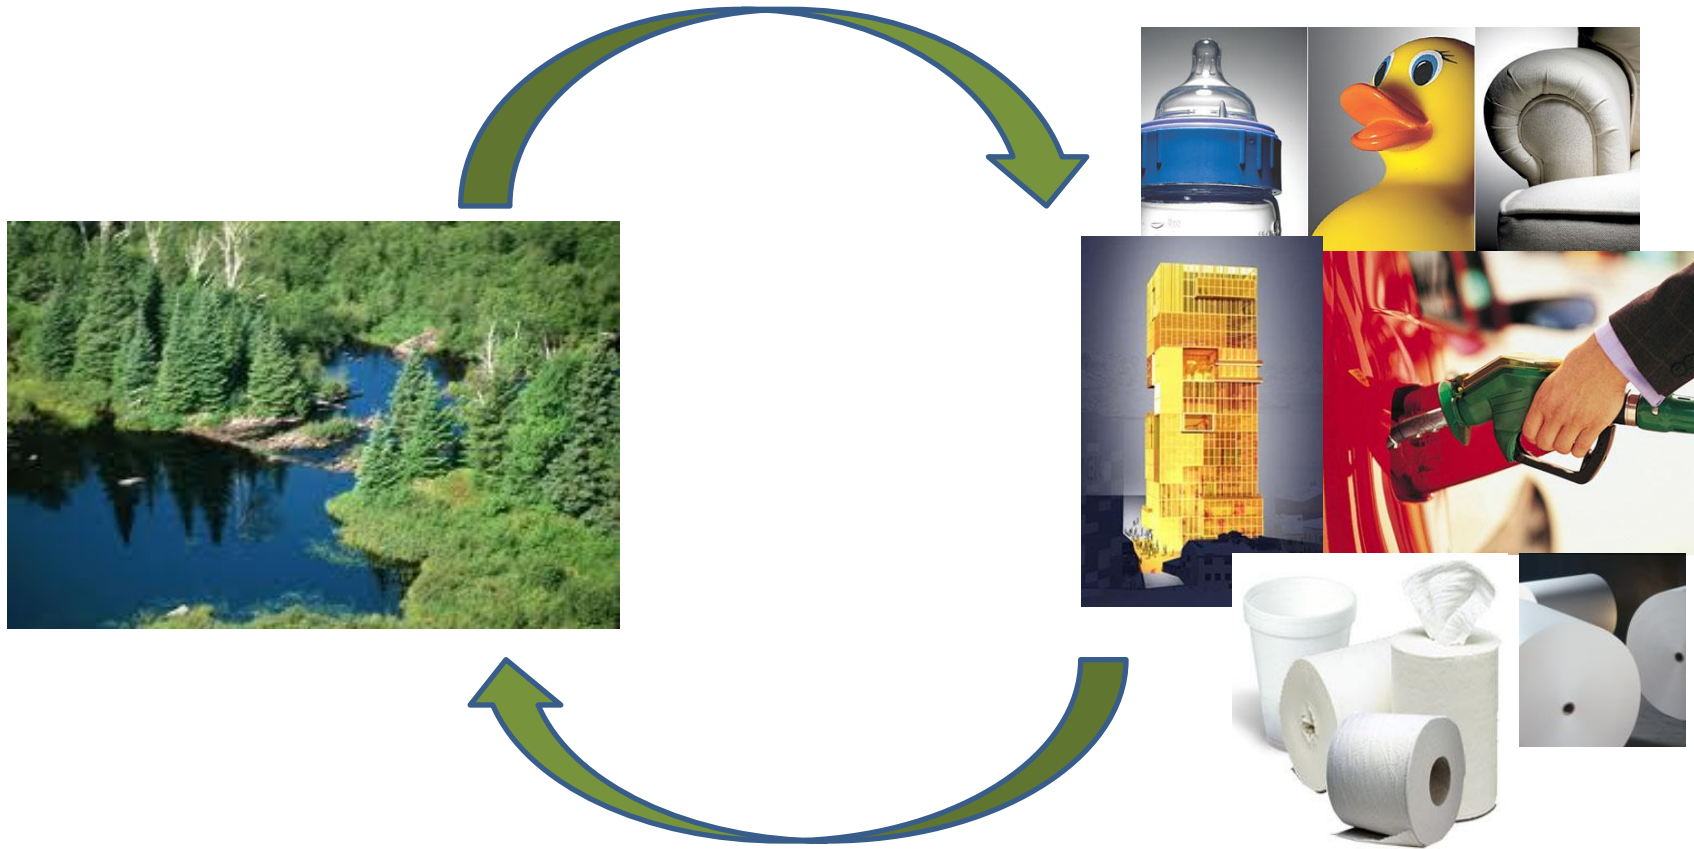

Building with wood

Biofuels production

The forest-based sector: Leading the Bio-economy

Conference Sessions

1. Future trends for the European forest-based sector
2. Moving the forest-based sector
3. The innovation support system
4. Research trends in the forest-based sector
5. The role of innovation for the forest-based industries

We wish you a good time in Warsaw!
